Продолжить работы со своим сайтом. Редактировать его в соответствие с требованиями. Добавить данные о себе на сайт.

1. Разместить фотографию владельца сайта.
2. Разместить краткое описание владельца сайта (Biography).
3. Добавить информацию об интересах (Interests).
4. Добавить информацию от образовании (Education).
5. Сделать пост по прошедшей неделе.
6. Добавить пост на тему по выбору: Управление версиями. Git.
Непрерывная интеграция и непрерывное развертывание (CI/CD).

Сайт – это совокупность веб-страниц, объединённых под общим доменом и связанных ссылками, тематикой и дизайнерским оформлением. Мы будем создавать статический сайт, для этого нам понадобится Hugo. Hugo — генератор статических страниц для интернета.

Мы продолжаем работу с Hugo. Будем учиться редактировать данные о себе и писать посты.

Выполнение индивидуального проекта

1. Разместим свою фотографию на сайте. (рис. 1)
